## About Us

**pdvWireless** (NASDAQ: PDVW) is focused on developing and offering solutions that leverage its spectrum assets for the deployment of next generation private networks designed to meet the needs of critical infrastructure and enterprise customers. We are the largest holder of licensed nationwide spectrum in the 900 MHz spectrum band throughout the contiguous United States, plus Hawaii, Alaska and Puerto Rico. We are currently pursuing a regulatory proceeding at the Federal Communications Commission that seeks to modernize and realign a portion of the 900 MHz band to increase its usability and capacity, and accommodate the future deployment of broadband technologies and services. At the same time, we are expecting to enable private broadband network solutions, leveraging our spectrum, that address the growing and unmet needs of our targeted critical infrastructure and enterprise customers.
